TURN Key
SOLUTIONS
COMPANY

CBS IT Systems Cyprus LTD is a leading Cypriot company specializing in Information Technology and Telecommunications. Its mission is to meet the needs of Private and Public Enterprises and Vertical Sectors by providing high-quality technology products, services, and turnkey solutions to enhance productivity and competitiveness.

As a leading System Integrator in Cyprus, CBS IT delivers comprehensive Information Technology solutions throughout the entire system lifecycle, offering:

- An analytical approach to client needs and requirements.

- Financial strength to assume full responsibility and risk in large IT projects.

- Structured project management with detailed procedures.

- High-quality hardware, software, and network equipment installations.

- Strategic partnerships with major hardware and software manufacturers.

- Proven expertise in both commercial and public sectors.

- On-time project delivery with guaranteed deadlines.

- Reliable technical support for as long as required.

- Qualified personnel for system operations and optimization.

CBS IT operates in the high-technology sector, focusing on Integrated T and Telecommunications Solutions, including Data Centers, IT infrastructure, networks, and specialized business support services. It also provides software application installations (ERP, CRM, BI, BPM), distributes standard software, and undertakes web-based and cloud service projects.

The company delivers comprehensive IT solutions, covering:

- Consulting and design services.

- Procurement of necessary equipment and software (both standard and custom).

- Infrastructure setup, including cabling and telecommunications.

- System optimization and staff training.

- Technical support, service contracts, and financial services for high-value equipment procurement.

Founded in 2010, CBS IT Systems Cyprus LTD is a subsidiary of Cosmos Business Systems SA, a company with over 30 years of experience in the Greek market (established in 1988). Cosmos Business Systems is a leading System Integrator, offering IT solutions, software, and telecommunications services across Greece and Cyprus.

CBS IT Systems Cyprus LTD is ISO 9001: 2015 certified in the Provision of Integrated IT Solutions, including Software Design & Development.

TURN Key SOLUTIONS COMPANY

Clients

CBS IT serves both Private and Public sector clients, delivering comprehensive turnkey solutions tailored to their specific needs. The company employs a specialized sales force of dedicated Account Managers, each focusing on a distinct market segment. This ensures a customer-centric approach, where solutions are precisely aligned with the unique requirements of each industry.

Customer classification is based on key criteria, including turnover, company size, and—most importantly—industry-specific technological needs. Beyond direct client engagement, CBS IT strengthens its market presence through Public Relations and Marketing initiatives, including promotions, events, advertising, and direct outreach.
