

## COSMOS & CBS IT SYSTEMS CYPRUS lead the digital transformation of the Cyprus Post.

[Read More](#)

The Department of **Postal Services (DPS)** and the **Deputy Ministry of Research, Innovation and Digital Policy** held a press conference on the **digital transformation of Cyprus Post**, attended by **Deputy Minister Nikodimos Damianou** and **Transport Minister Alexis Vafeadis**.

At the core of this transformation is the **€2.2 million Counter Automation System (C.A.S.)**, implemented by the consortium **COSMOS BUSINESS SYSTEMS S.A. - CBS IT Systems Cyprus Ltd.** The **C.A.S.** unifies all postal procedures and automates transactions, sales, inventory and accounting data, **reducing bureaucracy and improving speed** and transparency in citizen service. **Moreover, the ePost platform (epost.cypruspost.gov.cy) allows citizens to manage postal services digitally, improving efficiency, speed, and transparency.**

**CBS IT Systems Cyprus** has already implemented **Parcel24 lockers** and **advanced automated sorting systems**, showcasing its experience in delivering innovative, reliable, and user-focused postal solutions.

## CBS IT Systems Cyprus Implements Major Project for Cyprus' Public Universities | [Read More](#)

**CBS IT Systems Cyprus**, has embarked on a **major project for the three Public Universities of Cyprus - University of Cyprus (UCY), Cyprus University of Technology (CUT) & Open University of Cyprus (OUC)** under the "Laptop-for-All" strategy. This five-year initiative includes the **supply and configuration of modern Hewlett Packard laptops**, as well as **full technical support** and **on-site services throughout the lease period**.

The project aims to reduce maintenance costs, optimize device lifecycles, and simplify equipment replacement, creating a **more efficient and uniform digital environment across the universities**. It will significantly **enhance the educational and research experience for students, faculty, and administrative staff**, promoting digital readiness and operational consistency.

This milestone reinforces Cosmos Group's commitment to innovation, technical excellence, and reliable support for Cyprus' public and educational institutions, strengthening its role in the digital transformation of higher education and modernization of critical IT infrastructure.

## Delegation from the University of Cyprus Visits CBS.LAN facilities in Thessaloniki | [Read More](#)

Within the framework of the **project for the implementation of the Security Operation Center (SOC)** for the University of Cyprus, **CBS IT Cyprus Systems** had the honor of hosting **representatives from the University of Cyprus at the CBS.LAN facilities**, a subsidiary of the Cosmos Group, located at **Balkan Gate in Kalochoori, Thessaloniki**. The visit included:

- A **technical presentation and live demonstrations** of incident handling at the CBS.LAN Security Operations Center (SOC)
- An **overview of the company's comprehensive cyber threat detection and response services**
- A guided tour of the **Balkan Gate Data Center**, with discussions involving our scientific and technical teams

This visit represents another milestone in showcasing the **expertise and preparedness of our team to address the ever-evolving challenges in the field of cybersecurity**.

## CBS IT Systems Cyprus Ltd Becomes Official GETAC Reseller in Cyprus

**CBS IT Systems Cyprus Ltd** is proud to announce its **strategic partnership with GETAC**, a **global leader** in the design and manufacture of **rugged laptops and tablets**.

Through this collaboration, we are introducing to the Cypriot market state-of-the-art **technology solutions** recognized for their **exceptional durability, reliability, and performance**. These products are specifically engineered to **meet the rigorous demands of challenging environments**, including industrial sites, construction zones, mining operations, and emergency response teams.

**GETAC's solutions** ensure that your technology not only **withstands demanding conditions** but also **enhances operational efficiency and productivity across every challenge you encounter**.
