

Nikolas Kolokasides' Interview on Boussias: CBS IT Systems Cyprus Driving Cyprus' Digital Transformation through AI, HPC and Cybersecurity | [Read More](#)

Mr. Nikolas Kolokasides, Country Manager of CBS IT Systems Cyprus Ltd, in an exclusive interview with Boussias, highlighted the **company's evolution into a trusted strategic partner for digital transformation in Cyprus**. Based on the 40-year expertise of Cosmos Group, CBS IT Systems Cyprus **delivers advanced IT infrastructure, cybersecurity, cloud, and managed services, supporting both public and private sector organizations**. He emphasized the company's **customer-centric approach, continuous investment in people, and commitment to architectural excellence**. Looking ahead, he outlined the company's vision to further strengthen Cyprus' digital resilience by **expanding capabilities in Artificial Intelligence, High Performance Computing (HPC), and Cybersecurity**, future-ready technology solutions that create long-term value.

Cosmos Expands NVIDIA Collaboration with Visualization Competency in the Partner Network | [Read More](#)

CBS IT Systems Cyprus, a member of Cosmos Group, announces the expansion of its parent company Cosmos Business Systems' collaboration with NVIDIA through joining the **NVIDIA Partner Network (NPN) with Visualization Competency, further strengthening its position in the GPU and AI infrastructure market**. This recognition establishes Cosmos as an authorized partner for NVIDIA RTX and visual computing solutions, providing access to advanced sales, technical, and operational resources, as well as new high-value opportunities. The NVIDIA Visualization Competency spans GPU-accelerated computing, including RTX infrastructure, virtual workstations via vGPU/VDI, 3D design, simulation, digital twins, and AI-enabled workflows. **Cosmos reinforces its role as a provider of AI, HPC, and visualization solutions for public and private sector organizations across research, industry, education, and design.**

CBS IT Systems Cyprus Leads the Transition to the New Era of Telephony with Cisco Webex Calling [Read More](#)

CBS IT Systems Cyprus is driving the transition to the **new era of telephony with Cisco Webex Calling**, helping organizations move from traditional on-premises systems to cloud-based communication platforms. **Cisco Webex Calling integrates voice, video, messaging, and conferencing into a single UCaaS environment, offering flexibility, security, and seamless collaboration from any device**. Built on a highly available global infrastructure, it ensures business continuity, end-to-end encryption, multi-factor authentication, and compliance with international standards such as ISO 27001 and SOC 2. **CBS IT Systems Cyprus acts as a strategic integrator, delivering end-to-end services including design, migration, implementation, training, and managed support**. Through its expertise, the company enables organizations in Cyprus to adopt modern cloud communications, enhancing productivity, collaboration, and operational efficiency in a secure and scalable way.
