CBS IT Systems Cyprus & Lenovo Successfully Hosted "AI and Infrastructure Solutions" Event | Read More

CBS IT Systems Cyprus and Lenovo successfully hosted the **"AI and Infrastructure Solutions" event** on 21st of October, bringing together business and technology professionals to explore how **Artificial Intelligence can deliver measurable business value.** A key highlight was the **panel discussion, "Artificial Intelligence in Practice: From National Strategy to Business Value,"** featuring Mr. Demetris Skourides, Dr. George Tsouloupas, Mr Michalis Tyrimos, and Mr Vassilis Palaiologos. The discussion **addressed Cyprus's AI priorities, practical applications, organizational readiness, and future infrastructure needs.** The event also highlighted the High Performance Computing (HPC) project at the Cyprus Institute, implemented in collaboration with CBS IT Systems Cyprus using Lenovo technology. CBS IT Systems Cyprus, through the partnership with Lenovo, supports Cypriot organizations in evaluating AI opportunities and developing technology solutions that deliver sustainable business benefits.

CBS IT Systems Cyprus was awarded "HP Reseller of the Year – Computing" for Cyprus | Read More

CBS IT Systems Cyprus, was recognized by HP Inc. as **"Reseller of the Year – Computing"** for Cyprus at the HP Annual Partner Event 2026, held at the Botanical Park of Attica. The award **recognizes the company's strong performance in delivering HP Computing solutions to the Cypriot market and highlights the longstanding partnership between the two organizations.** Nikolas Kolokasides, Country Manager of CBS IT Systems Cyprus, received the award on behalf of the company. This distinction reinforces the company's position as a **leading HP technology partner in Cyprus and reflects its continued commitment to delivering advanced computing solutions and integrated IT services.** Through its collaboration with HP, CBS IT Systems Cyprus helps businesses modernize their IT infrastructure, address evolving technology requirements, and advance their digital transformation.

How Modern Networking and Wi-Fi Infrastructure Impact Business Continuity in Cyprus | Read More

Discover how **modern networking and Wi-Fi infrastructure can strengthen business continuity and support long-term growth**. As organizations expand, adopt cloud services, embrace hybrid work, and increase the number of users and connected devices, their network infrastructure must evolve accordingly to meet growing demands for performance, security, and reliable connectivity.

CBS IT Systems Cyprus designs and implements networking solutions tailored to each business's needs, from assessing existing infrastructure and designing network architecture to optimizing Wi-Fi coverage, ensuring secure connectivity across multiple sites, and providing ongoing technical support. **By combining specialized engineering expertise with technologies from leading international manufacturers, the company delivers flexible and scalable networks that adapt to changing business requirements.** This approach helps organizations maintain productivity, protect their systems, and build a reliable technological foundation for future development.
